

**Lone Star Executive Airport KCXO**  
Gateway to The Woodlands and North Houston

## Gateway to The Woodlands and North Houston

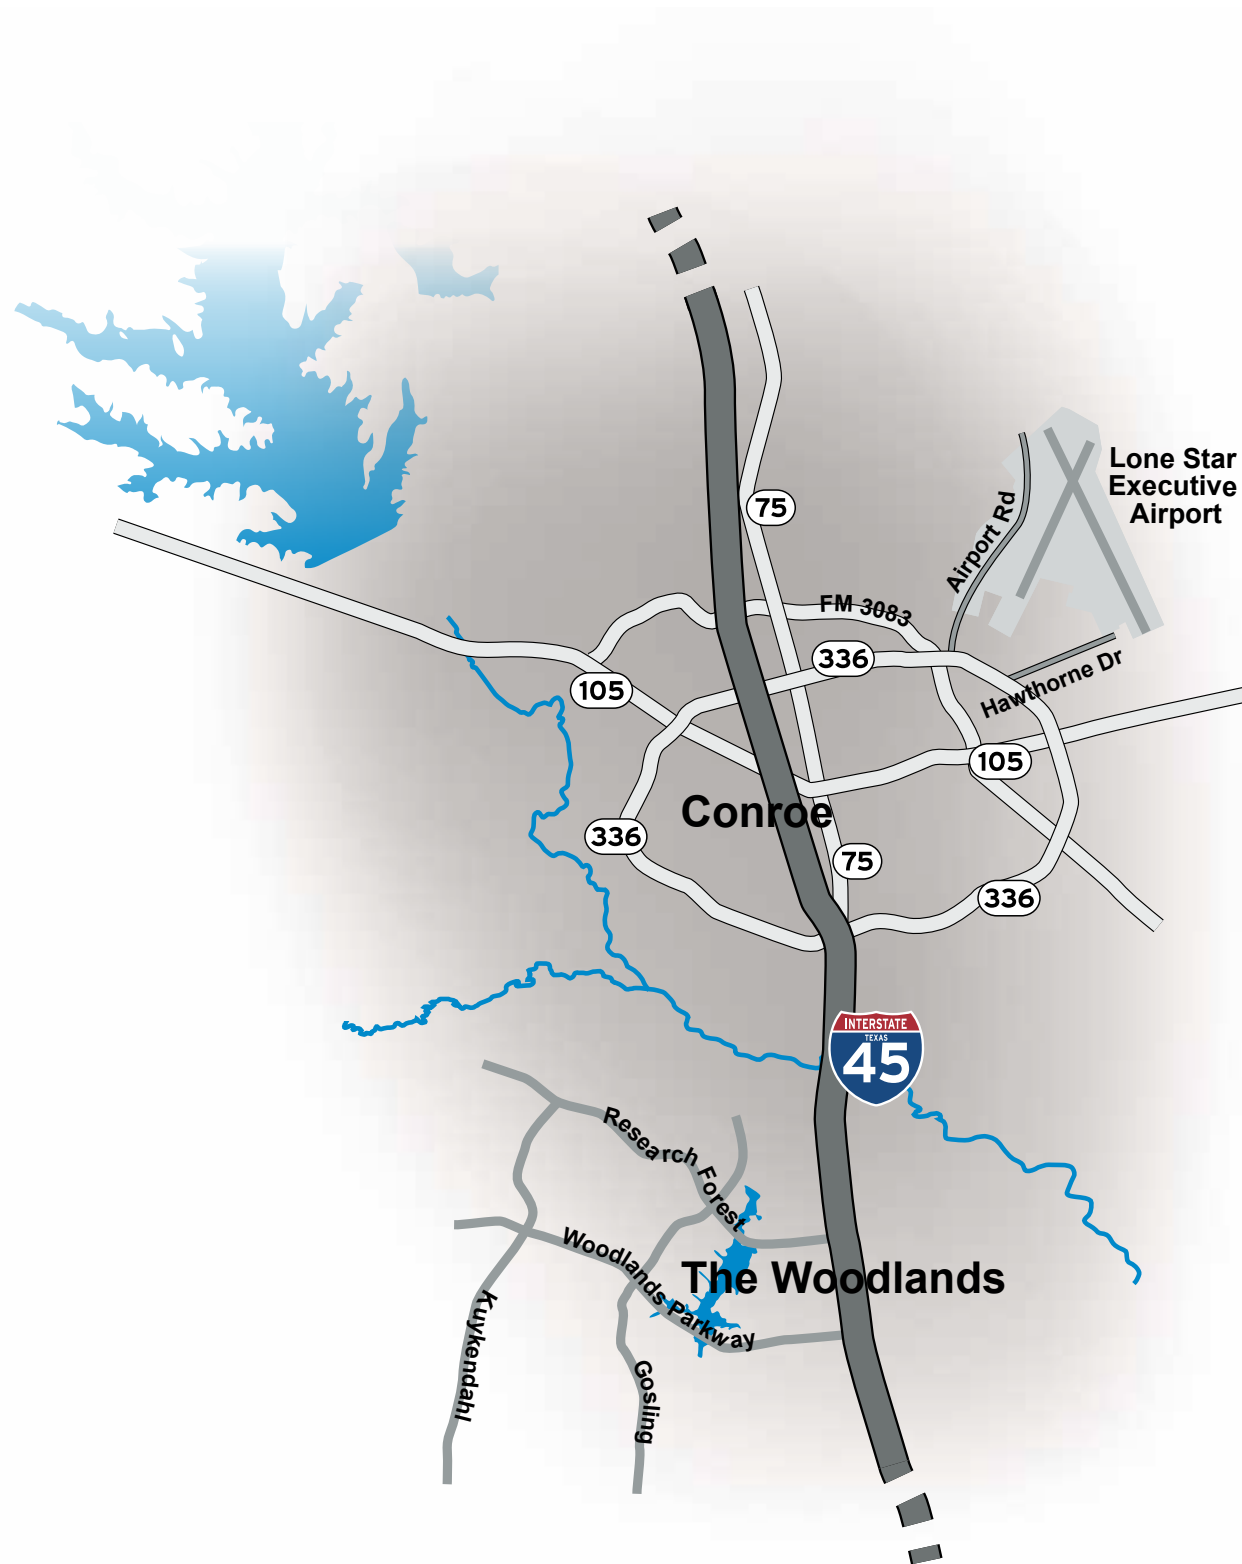

Uniquely positioned as a gateway to North Houston, the Lone Star Executive Airport in Conroe is located only 25 minutes from The Woodlands.

Among many advantages, the Lone Star Executive Airport offers convenient taxi routes to all runway ends with no landing fees.

The airport features two runways ideal for large cabin jets:

- Runway 14-32: 6,000-foot by 150-foot wide, full ILS with approach lighting.
- Runway 1-19: 5,000-foot by 100-foot LPV/GPS/RNAV instrument approaches.

Near future expansion plans include the extension of the Runway 14-32 to 7,500-feet.

Houston Airports	Distance to The Woodlands	ILS Approach Runway	Runway Over 5,000 ft	Commercial Airline Traffic	U.S. Customs
